

Make Better Grades & Earn a Credit Hour

LBSC 1011 is a one-hour-credit course to help you develop effective research techniques and become efficient using library resources.

What does that mean? It means you'll learn how to use the library better and faster, so you can produce superior class assignments in record time.

The eight-week course is offered in-class or online at different times throughout the semester. For a list of course sections or for more information, go to www.library.okstate.edu/lbsc1011/.
